Subject: Microsoft Settlement

Dear Department of Justice,

The appropriate time and diligence has been dedicated to the Microsoft settlement and the recent settlement is both fair and tough to Microsoft.

I encourage the Department of Justice to complete this settlement, as it stands, and pave the way for the US consumer, Microsoft, other software/hardware companies and American business to move forward. We certainly know that moving forward is good for our country, particularly in these difficult times.

Sincerely,

Sandra O. Myskowski
